

HILL RESOURCES, INC., was founded in 1991 to provide safe, high quality programs for people with developmental challenges. Our philosophy is to approach each person served as if they were a part of our own family. We believe that God owns everything and that we are stewards of His resources. Therefore, we seek His guidance when considering the needs of each person requesting our services and in the selection of employees who serve in our organization. We are licensed and certified by the State of Texas and the Department of Labor to provide residential, vocational, and day habilitation services.

GOD HAS ALLOWED us to become a living testimony of His provision. As written in the book of Philippians, our God continues to provide all of our needs according to his riches in glory. We have seen His hand in every area of this organization, even in the selection of our employees. We are truly blessed to have found key staff members who are like minded in our endeavor and who have played vital roles in enriching and supporting the people and families that we serve.
